ABOUT ME

A committed, dedicated and experienced software engineer with a proven track record of accomplishments in the development of mobile and web applications. I have distinguished myself exceptionally in the areas of mobile and web applications over the years. I am an exceptionally creative thinker, multitasker who is willing and able to work and deliver results. I have experience overseeing and optimizing maintenance processes for various clients across industries.
As someone who is adequately equipped with diverse skills set, my core competencies are majorly focused on software design and development with exceptional prowess in PHP/Laravel, Angular, Javascript, NodeJS, Express, React, Mongo DB, MYSQL, HTML and other frameworks.
As a team player and leader, I have sucessfully worked with various teams and spearheaded a number of applause-worthy projects for various organizations. My ability to adapt to dynamic environments has continued to help in the smooth and steady delivery of results.

WORK EXPERIENCE

Nigeria Govenors' Forum Abuja Abuja

Software Engineer
01/04/2025 – Current
1. In-House Software Development
   • Proven experience in the end-to-end development of in-house applications tailored to organizational needs.
   • Skilled in gathering requirements, planning architecture, designing UI/UX, implementing features, and deploying secure, maintainable systems.
   • Track record of collaborating with internal teams to deliver tools that optimize operations and improve service delivery.
2. Frontend and Full Stack Application Development
   • Strong proficiency in modern web technologies:
   • **React.js:** Building responsive and interactive user interfaces.
   • **Next.js**: Both server-side rendering (SSR) and client side rendering, API integration, and performance optimization.
   • **Vue.js**: Both server-side rendering (SSR and clent side rendering, API integration, and performance optimization.
   • **AngularJS**: Legacy system support and scalable enterprise application development.
   • **Laravel**: API integration, and performance optimization.
   • Experienced in integrating frontend applications with RESTful and GraphQL APIs for seamless data communication.
3. Backend Development with **NestJS, Node, Laravel**
   • Advanced use of NestJS for creating scalable, modular, and type-safe backend services
   • Advanced use of LARAVEL for creating scalable, modular, and typesafe backend services
   • Capable of designing clean architecture, implementing authentication, role-based access control (RBAC), logging, caching, and testing.
   • Integration with third-party services such as Firebase, Google Cloud, and payment gateways.
4. Database Administration
   • Solid experience in PostgreSQL, MySQL, and MongoDB database design, optimization, and maintenance.
   • Skilled in writing efficient queries, data migrations, indexing strategies, and backup/recovery processes.
   • Knowledge of data integrity, access control, and performance tuning

The Federal Airports Authority of Nigeria Abuja, Nigeria

System Support Officer
12/02/2025 – Current
System Support Officer
   • Diagnosed and resolved technical issues to ensure smooth IT operations across departments

- Developed long-term solutions for recurring system problems, reducing downtime and improving efficiency
- Automated key ICT department processes to enhance operational productivity and reduce manual workload.
- Supported the development, deployment, and maintenance of internal software applications.
- Collaborated with multiple departments to improve operational reliability and reduce associated costs.
- Provided technical support for the repair and overhaul of aircraft components, ensuring compliance with airworthiness regulations and industry standards.

Aviation Security Officer
- Ensured the safety and security of passengers, crew, airport staff, aircraft, and all airport facilities.
- Conducted thorough screening of passengers and baggage to detect and prevent prohibited items.
- Patrolled airport premises and monitored access points to detect suspicious activity or breaches.
- Responded swiftly and effectively to security incidents in line with established protocols.
- Enforced compliance with national and international aviation security standards and prevented unlawful interference in airport operations.

Brand Drive Abuja
